Belgians & Barleywines

COMMERCIAL TASTING PROGRAM

———— Breckenridge ————

Our Organizational Mission

The Big Beers Educational Foundation was created to further the education for and about the brewing community.

A Brief History

Formed in 2016 as a Colorado 501(c)(6) non-profit organization, the Big Beers Educational Foundation was created to further expand the educational and charitable intent behind the Big Beers, Belgians & Barleywines Festival.

The Founding Directors of the Big Beers Educational Foundation are siblings Bill & Laura Lodge, who dreamed up, created and executed the Big Beers Festival for its first 16 years. The remaining Board of Directors positions are filled by industry veterans and professionals to assist and guide the BBEF team into the future.

The Big Beers Educational Foundation will support like-minded groups and events, potentially expanding beyond the Big Beers, Belgians & Barleywines Festival into other endeavors. For more information visit <http://bigbeersfestival.com/info/about-big-beers/> or email us at Laura@BigBeersFestival.com.

This complex and malt-forward Imperial Stout is brewed with an array of local ingredients and flavors to add dimension and celebrate Alaska's history and home. Alaska birch syrup from Kahiltna Birchworks lends a deep, almost tart character to the dark malt profile, while wildflower honey adds a delicate sweetness and floral notes to the aroma and finish. The slight addition of our in-house alder-smoked malt alludes to the distinctive roasted flavor of turn-of-the-century malting practices, without overpowering the more subtle flavors of this dynamic anniversary brew. Bloodmoon Monk

A high-powered hybrid between a Belgian Quad and a Black IPA, the BloodMoon Monk is named for that dark reddish color just short of black. Tweak

Our very own Parker, of the cartoon and cat loving variety, created this cult classic character back in our 17th season. Appearing in several episodes under another stage name that was deemed inappropriate, our executive producers and editors decided that a name change and further character development—a 4-month hiatus in Bourbon barrels—were necessary to satisfy our most ardent and demanding viewers. ABV: 17.5%

Rumpkin

We wondered what would happen if a monstrous pumpkin ale, plump full of spicy gourddiness, were aged in fine fresh rum barrels to add suggestions of delicate oak and candied molasses. Rumpkin is what happens! ABV: 18%

L'Eighyore

No 39. No, you're not God's gift to brewing. What's that, Mumbleigh? Breaking down the universe in mumbleverse. Thank goodness your head is so damn thick. There's no future in the mohawk. Here's to day 233! ABV: 9.9%

Uncle Jacob's Stout

Jacob Spears, our 6th Great Grand Uncle, is credited as the first distiller to label his whiskey "Bourbon." He built his distillery in Bourbon County Kentucky in 1790 — 203 years before we began brewing. While obviously a bit too late to produce Uncle Jacob's wash, we've instead created something far more complex. In his honor, we present this robust, silky smooth, full-bodied and altogether extremely American rendition of an Imperial Stout aged for 6 months in the very finest Bourbon barrels. This explains a lot about our penchant for big brews! It's in our blood! ABV: 17.1%

Bale so Hard

This recipe was the winner of the 2015 Bell's Homebrew Competition, developed by Michigan homebrewer David Hellen. A farmhouse-style ale, Bale so Hard is dry-hopped with Mosaic and HBC 438, an experimental variety available to homebrewers. A saison yeast and Brettanomyces blend works in conjunction with those hops to create a unique, pungent, fruity, tropical, spicy aroma and flavor. Michigan Pale Ale malt from the Bell's farm was also used. This beer is only available on draught at the Bell's Eccentric Café, the 2016 Great American Beer Festival, and a few special events. ABV: 6%

Bell's Expedition Stout

One of the earliest examples of Russian Imperial Stouts in the United States, Expedition Stout offers immensely complex flavors crafted specifically with aging in mind. A huge malt body is matched with a heady blend of chocolate, dark fruit and other aromas. The flavors will slowly meld and grow in depth as the beer ages in your cellar. ABV: 10.5%

Third Coast Old Ale starts with a rich, caramel base, and finishes with a heavy hop bitterness. Sharply intense at first, it will age gracefully, adding complexity and subtlety in your cellar. Go ahead, test your patience. ABV: 10.2%

Bell's Raspberry Wild One

Raspberry Wild One begins, not as a single beer, but distinct batches fermented in wooden foeders each with its own array of flavors. Our brewers sample and blend to taste, resulting in a refreshing brown ale with a tartness buoyed by fragrant aromas of ripe red raspberry, cherry, apple and a bit of funk from Brettanomyces yeast. A secondary fermentation with raspberries adds distinctive raspberry aroma and flavor and another, subtle layer of tartness. ABV 6.6%

Metallurgy Sour Collection – Pear

Metallurgy is the technique or science of working with metals, and the sour ales in this unique collection are aged for about a year in stainless steel rather than oak barrels to maintain sour ales in their purest form. This metal-aged purity and simplicity is further complemented by relying solely on the wild yeasts and other microflora naturally occurring on the fruits to beautifully and spontaneously sour these beers, bridging all gaps between ciders, wines and ales. Sour Pear Ale presents with a pronounced aroma of fresh pears and Brettanomyces with light straw color, a mouthfeel and body that is velvety soft from fruit skins, similar to sauvignon blanc wine, and a bright flavor evocative of ripe, fleshy pears.

Bourbon County Stout

Back in 1979 the folks at Heaven Hill Distilleries filled a handful of new freshly charred American white oak barrels with some of their finest whiskey. It is rare for Bourbon to age in barrels for more than twenty-three years. But these barrels patiently sat for over thirty years. The extra years developed a distinct and complex character that makes them truly one-of-a kind. We filled those barrels with Bourbon County Brand Stout, and then stored them away in our Chicago Barrel House to age for two more years. With these rare barrels from our friends at Heaven Hill we believe this is one of the finest beers we have ever produced. This is Goose Island Rare Bourbon County Brand Stout. IBU: 60 | ABV: 14.5%

BCS Proprietors

Proprietor's Bourbon County Brand Stout is meant to show our immense gratitude to our neighbors here in Chicago – the loyal and adventurous fans whose support helped bring Bourbon County Brand Stout to towering new heights. Each year this release will differ from the previous year; a special variant created for Chicago and unique to the year it was released. Whether your first sip is today or was from that first batch in 1992, thank you for lifting us up on your big shoulders and joining us every year to celebrate the original bourbon barrel aged stout. IBU: 60 | ABV: 14.1%

Halia

Halia is a farmhouse ale aged in wine barrels with whole peaches, resulting in bright, effervescent fruit notes in a soft, hazy body that finishes slightly tart and sweet with the pleasant character of ripe, juicy peaches. Literally meaning "remembrance of a loved one" in Hawaiian, Halia was brewed in memory of the dear friend of one of our brewers who loved peaches. IBU: 11 | ABV: 7.5%

Sofie

Our sparkling Belgian Style Farmhouse Ale is wine barrel-aged with an abundance of hand-zested orange peel. Spicy white pepper notes contrast the citrus tartness. The light, refreshing, creamy vanilla finish will excite those fond of Champagne. IBU: 20 | ABV: 6.5%

The Smoothness 2016

A Dark Lager aged in Jameson whiskey barrels as a part of the Drinking Buddies campaign. This beer is a collaboration with Jameson Caskmates who will be releasing a Jameson whiskey aged in the same barrels after we shipped them back to Ireland. ABV: 8.5%

Red Wine Barrel Aged Yeti Imperial Stout 2015

Rather than aging our beloved Imperial Stout in whiskey barrels, we chose to take a very small amount of the beer and age it in red wine barrels. This difference results in a surprising tannic dryness and nuance while still maintaining the beer's core roasty and rich toffee flavors, offering a whole new experience with this barrel aged beast. ABV: 11%

Barrel Aged Yeti Imperial Stout

This unique version of our monstrous Yeti Imperial Stout is aged for at least 12 months in whiskey barrels. The spirited aging process produces a hugely complex but mellowed Yeti, with its signature roasted flavors, hints of vanilla and oak, and a whiskeyed finish. Who says you can't tame a beast? ABV: 12%

22nd Anniversary Dark American Sour Ale (2015)

An expert blend of bold character, this Dark American Sour is a perfect culmination of 22 years of craft and ingenuity. Aged in red wine barrels, this robust offering is as sophisticated as it is sour. Notes of black cherry jam and tobacco are countered by a welcome tartness and tannic oak finish that lasts long after each sip, making 22nd Anniversary a beer you won't soon forget. ABV: 8.7%

Barrel Aged Old Ruffian Barley Wine

This special release of our acclaimed, hefty barley wine has been aged for over 12 months in whiskey barrels. The process tempers Old Ruffian's edges for a mellowed version with heady whiskey flavors and subtle oak notes. This rounded wonder clocks in at IBU: 90 | ABV: 12.8%

Orabelle Belgian-Style Tripel

Orabelle is brewed with barley, wheat, oats, and rye. This Belgian-Style Tripel is a golden beauty. Watch out, she's a charmer – one sip and you'll be in love. ABV: 8.3%

Old Burton Extra (OBE)

Thus, we present to you "Old Burton Extra." A large ale of considerable strength (8.9%abv), hopped with Goldings in the kettle Fuggles dry-hop, this ale drinks with huge fruit esters, dark candied fruit, considerable dry bitterness, and faint notes of spicy hop, caramel, and fruitcake. But watch out because as the old 19th century song goes, "Ne'er tell me of liquors from Spain or from France, They may get in your heels and inspire you to dance. But Ale of old Burton if mellow and right Will get in your head and inspire you to fight." IBU: 77 | ABV: 8.9%

Snow Drop

Once upon a time German beer was only deemed pure if it contained the four orthodox ingredients of brewing: water, barley, hops, and yeast. During this time, an ale known as Köttbusser was outlawed because it contained oats, honey, and molasses. Over the centuries since its prohibition, Köttbusser became a lost brewing style. At Grimm Brothers, we've resurrected this refreshing ale with a kiss of hops. You don't need a magic mirror to know that Snowdrop is the fairest in the land. Recommended by dwarves everywhere! IBU: 20 | ABV: 7.1%

Barrel Aged Magic Mirror

Magic Mirror is an imperial version of our flagship Snow Drop Köttbusser Ale. It is brewed with more grains, honey and molasses then aged in oak. The result is a big, malty, light colored ale with just enough hops to balance the sweetness but still leave a refreshing oak flavor on your tongue. There is a noticeable but a soft Brettanomyces character that adds a additional complexity and hint of sourness which leaves truly unique finish. IBU: 26 | ABV: 11%

Bourbon Barrel Aged 13th Door

The original 13th Door is a big malty beast that features a slight alcohol warmth with notes of plum, stone fruit, caramel, and a hint of chocolate on the nose. We took that beer and aged it in bourbon barrels which only added to the complexity of an already very complex beer. The nose translates to the tongue adding some sweet toffee flavors and finishing with a nice bourbon bite. The full body of the 13th Door combined with the high ABV makes this a great beer for sipping on a cold night or cellaring for the future. IBU: 90 | ABV: 13%

Rum Barrel Aged Coconut Porter

Our Scottish Tradesman Coconut Porter is a smooth blend of dark malts with coconut-ty hints of the Caribbean – and it packs a secret punch. Spending almost a year mellowing out in rum barrels from St. Croix added some fantastic layers of flavors to the original beer. The aroma gives hints of spicy rum and cake-like vanilla and chocolate, the body is thick and creamy; coconut continues in the flavor and heightens the interplay between the malts. The beer finishes dry and sweet with a tiny hint of the warmth those barrels previously contained. Enjoy our last keg of this beer and ready yourself for colder days heading our way. ABV: 9.0%

H&D Snug Vanilla Caramel Double Cream Ale

A wonderful winter warmer, this creamy, sweet ale will bring to mind warm blankets, fireside conversations, and all the best holiday cookies. It pours with a delicious, creamy head that is redolent with vanilla caramel aroma. Caramel continues in the taste, and the beer finishes with a bit of a warning that it is not an ale to be taken lightly. ABV: 8.2%

Agitated Aardvark Imperial IPA

Strong, pungent, resinous fumes waft from this pale golden colored ale while a pinching bitterness tingles the sides and tip of your tongue. A light grain maltiness rounds out the first taste, with hop bitterness lingering before it leaves a clean finish to clear out your palate. A hop lover's heaven! ABV: 8.5%

Bourbon Barrel-aged Imperial Stout

Our 2016 Bourbon Barrel Imperial Stout was aged in Elijah Craig 12 year barrels, creating an incredibly complex depth of flavor. There are no shortcuts. This ale cannot be rushed or hurried through the aging process. Each barrel is tasted to assess its worthiness and we exclude barrels that don't make the cut. In the end, we have created a unique beer that we hope you enjoy as much as we do. IBU: 70 | ABV: 10%

Imperial Mild Ale

Yeah, we know. It sounds contradictory but in fact, Imperial Milds, otherwise known as "XXX" ales, date back to 19th century England. We don't have much reference as to what these historical ales tasted like, but we like to think this is a close representation. Briefly aged in 2nd generation bourbon barrels to impart traditional oak-cask flavors; lightly hopped for mild-like drinkability and made with a mix of bready English malts for an intensely rich flavor. High West Imperial Coffee Stout

2016 One Hitter Series. This purely barrel-aged beast couldn't have been done without the help from our friends at High West Distillery in Park City, Utah and Chicago's own Metropolis Coffee Co. Vintage Gnarlywine

2016 One Hitter Series. The first sip is for thirst, the second one for pleasure. The third sip is for knowing, and the fourth for pure madness. Citrusinensis Pale Ale

2016 One Hitter Series. We took some fresh Sanguinello Blood Oranges, juiced 'em, concentrated that juice (without heat) and threw it into a wheatier version of our New Dogtown Pale Ale. The end result? A refreshingly hopped pale-ish ale with a huge citrus burst!

Dark Swan

2016 One Hitter Series. Observers of yester-century once doubted the existence of the Dark Swan, stating the fair-feathered fowl was the only color of its kind. Explorers eventually upended that theory, shocking the world and shining light on the Dark. This beer might just do the same. It is a sour ale fermented with dark red wine grapes, giving it its uniquely deep and rich purple hue. Then it received the signature Lagunitas treatment with a healthy dose of experimental dry hops. This might just shock your taste buds.

La Negra Barrel Aged Imperial Stout

Big, black, beautiful, and now nearly a year in the making. La Negra is wine barrel-aged Russian Imperial Stout, brewed with our British Pale malt, and an enormous amount of roasted malts. A 5 hour boil lends a big burnt sugar and raisin character while the intense bitterness gives the beer an incredible dark chocolate finish. Needless to say, the mouth-feel is what one would expect from one of the biggest beers we've ever brewed. IBU: 80 | ABV: 10.5%

Albus Quercus

6th Anniversary-Barrel Aged Super Saison. This Farmhouse Ale was fermented with a blend of several yeasts from the Hainaut Province of Western Wallonia, Belgium, in the Saison tradition of that region, and like the Saisons, was brewed with a blend of Pilsner malts. After fermenting at nearly 95°F, this beer was racked into French white oak barrels that previously had aged Chardonnay from Santa Ynez, California. What emerges is an effervescent beer of intense complexity; grape skin, almond, black pepper, pineapple and vanilla are all apparent. The flavor is strongly fruity, with light oak tannins and a good dose of spice from both the yeast and the enormous amounts of premium Czech Saaz hops used in the boil. The body is lush with alcohol and carbonation and the finish is bone-dry and quenching. IBU: 40 | ABV: 8.6%

20th Anniversary Barrel Aged Blend

Our 20th Anniversary Barrel Aged blend is a mix of award winning beers that have been aged in various bourbon, rye whiskey and rum barrels. The result is a luscious dark brown libation with a thick creamy head. Notes of vanilla, tobacco, coco and some citrus are backed by a rich malt complexity.

Proyecto Numero Cuatro

This barrel project is not for the meek. It's a complex mingling of Black Diamond Imperial Stout aged in Nicaraguan Rum barrels, blended back into our Café Brebaje – Coffee Porter. The Russian Imperial Stout was aged in Ron Flor de Cana barrels for 18 months, at 45 Fahrenheit, and a relative humidity of 25%. The coffee porter has over a pound per barrel of ground Central Scrutinizer, from Bonfire Coffee Company. This medium to dark roast coffee holds notes of chocolate and citrus. The results of the final blend are outstanding, leaving a nice rum booziness and brown sugary sweetness to balance out the complexity of the Nicaraguan Coffee.

WELCOME TO BRECKENRIDGE!

Thank you so very much for your unhesitating support of our relocation of the Big Beers, Belgians & Barleywines Festival. It has most definitely been a pilgrimage of discovery, this year of transition, and we can sincerely say that we hope we never need to move again!

As is true of "first years" always, please let us know anything that you see throughout the weekend that could be helpful going forward. We have to do it once to know how to fix it, and your help will be appreciated to dial it in. (and please be forgiving if something doesn't work well)

In addition to thanking our longstanding team of brewers, volunteers & sponsors, a general "thank you" to the entire Town of Breckenridge is most definitely in order. Thank you for being so welcoming, so excited to celebrate our mission with us, and so interested in being involved with what we do. At this point we have no question that this is where we are meant to be. Now – let's hope Breckenridge thinks so, too!

Another special shout out goes to all of the brewery & distribution folks who live in Summit County: THANK YOU! Your contact names, lists of businesses who would be interested in what we do, spreading the good word, and helping to make it all happen with us is absolutely appreciated. You simply rock.

Cheers to our first "Big Beers Breck"! Let's make it a good one.

Most sincerely,

Laura, Bill & the Big Beers Educational Foundation Board of Directors

Madonna and Child Sour Ale w/ Lime & Salt

A dark sour ale with Lime and Salt, Madonna and Child was inspired by Southern California's love for Margaritas. Intense citrus aroma with just a hint of sweetness, Madonna and Child begins with a refreshing lime tartness, balanced with some dark sugar and ending with a splash of salt and some spice from the tequila.

Brett Devotion Belgian Blonde

Designed to be a hop driven beer, the aroma presents mostly European variety hops with underlying notes of fresh hay and grassy fields. There is a very low level of yeast phenols present and much of the subtle spice come from the aromatic hops. A lighter bodied beer that immediately makes an initial hop impression followed by a brief thinning layer of malt which is swallowed in the driest finish by a driven hop expression. ABV: 6.3%

Framboise de Amorosa Raspberry Sour

An overstated French Raspberry nose invites you to the glass. Amorosa beckons from the first splash in the glass. She is juicy fruit from the vine. The first sip is a sweet start with a long drawn out sour finish. Some of the sweetness from the raspberries comes out before smooth acidic notes join the mix. On the back end, the beer has a nice smoothing oak character which keeps it from becoming dull. ABV: 7%

Avant Garde Farmhouse Lager

An enticing blend of ripened orchard fresh fruit (green apples), and warm bread pulled just from the oven. The beer starts off with an initial malt sweetness that fades into a firm but subtle hop presence. The lager yeast and cold maturation ensure a crisp smooth finish. ABV: 7%

Judgment Day Belgian Quad

A massive beer in every sense of the word, there are layers of dark malt, alcohol, raisins, and yeast all fighting to be at the forefront. In the end, they cry "Mercy" and settle into a joint role of supporting each other. Abbey style beers often emphasize layers of malt surrounded by yeast driven complexities. Our Judgment Day Ale is the result of lots of fermentables from malt, raisins, and dextrose. There is a very large warming effect from the elevated alcohol levels which ensure your soul will be saved come Judgment Day. ABV: 10%

Angel's Share Oak Aged Barleywine

There are so many aspects at work in this beer. We have an initial impression from the oak aging of fortified wine and Port. There is a pleasing vanilla backdrop supported by some great sweet malt notes. An incredibly smooth and sweet beer with a long lasting finish. The Bourbon barrel aging of the beer results in a full bodied and luscious texture layered between fruit and malts. ABV: 12.5%

Dead Man's Game

Blackberry Barleywine

Here's the style expectations for a barleywine. It's good to realize there are two specific style variations, the traditional English and the newly and aggressively hopped American with much higher bitterness and tons of American hops. Ours is more true to tradition but with a fruit addition to give it new life. The origins of this style are based in the wishes to counter the threat of imported wines (mainly from France), English brewers fought back with strong ales. Nobel hops were used to balance the rich sweetness of the malt sugars. The fermenting beer had to be constantly roused and repitched with yeast in order to achieve the required strength. Some breweries would roll the casks around the yards once a week in order to encourage the yeast to keep working. IBU: 50 | ABV: 12%

Brewmaster Anne-Francoise Spiced Dark Strong Ale

This bold beer's brewed with layers of specialty malts, dry-hopped with herbal French Strisselspalt, and spiced with citrusy grains of paradise and spruce tips. We then steeped toasted American oak spirals in the beer for two weeks, bringing a subtle spicy, vanilla flavor to tie the chocolate malts and citrus spices together. IBU: 25 | ABV: 9.5%

Le Terrior Dry-hopped Sour Ale

Sometimes Belgium influenced these beers that are introduced to "wild" yeast and/or bacteria, such as: Brettanomyces and/or Pediococcus, Lactobacillus. This introduction may occur from oak barrels that have been previously inoculated, pitched into the beer, or gained from various "sour mash" techniques. Regardless of which and how, these little creatures often leave a funky calling card that can be quite strange, interesting, pleasing to many, not to all. IBU: 12 | ABV: 7.5%

Hof Ten Dormaal Belgian Golden Ale

Also known as Belgian Blondes or Belgian Session Ales. These are highly quaffable and meant to be, yep, sessioned – have a few! Though malt-oriented the key word for Belgian Golden is balance, since the maltiness is backed up by fruity aromas, though less so than many other Belgian ales. There is usually a floral or spicy note, with lovely hop aromas – everything in balance. You could easily slide this into a Farmhouse Ale. We are collaborating with a Belgian Farmhouse brewery and are using their house ale strain! IBE: 20 | ABV: 7%

Imperial Pumpkin Sleigh'r

Known for its deep toasted malt complexity, this take on our winter seasonal, Sleigh'r, is the perfect way to celebrate the season. The addition of dark brown sugar creates a sweet aroma, followed by an incredibly smooth mouthfeel from the use of organic pumpkin puree. This effect gives this beer a less drying, yet noticeably warm finish from the elevated alcohol percentage.

Tripel

This is a Ninkasi take on a Belgian tripel. Tripels are brewed with Belgian-style yeast contributing a spicy, clove-like aroma with citrusy and floral notes. They are generally effervescent with a long-lasting, dense white head. We brewed ours with Pilsner and Carapils malts, as well as Hallertau and Saaz hops. Enjoy!

Critical Hit Barleywine

In true Ninkasi tradition, this Barleywine is hopped to high heaven. Massive in nature, its rich, malty expression is balanced by 24 hop varieties that linger on the palate. Critical Hit does maximum damage, so you might have to roll to save if you take this ale for granted.

Tricerahops DIPA

A colossal hop profile defines this deceptively drinkable Double IPA. Earthy and floral hops meld with a generous amount of malt, making Tricerahops incredibly bold and balanced. Hoppy, intensely flavorful and smooth, it's double everything you already love in an IPA.

N10

Crafted with Imperial Stout, barrel-aged Imperial Stout, two Imperial IPAs and Barleywine, these five heavy-hitting beers collide to celebrate one unforgettable decade. Big and flavorful, our N10 blend offers a striking hop intensity followed by a rich backbone of caramel and roasted malt. Enjoy now or save for later, this beer is crafted to change over time in the most delicious way.

Prop Culture

We experimented with PROPagating different combinations of Belgian yeast CULTURES and blending them in specific primary and secondary fermentations. We let the Saccharomyces cultures do the heavy lifting by converting the bulk of the wort sugars while the Brettanomyces cultures did the fine tuning to round out the flavor profile. The result of our experimentation led to PROP CULTURE, a project of 10+ yeast strains working together to create a fruit forward collage of flavors like pineapple, pear, mango, and banana balanced by a clove like spiciness. Rum Barrel Aged Death By Coconut

This was a complete no brainer for a barrel aged beer. Regular DBC takes the palate to a different place from the typical beer world of malt and hops. When you think of coconut you think tropical when you think tropical you think rum. If that wasn't decadent enough having a beer that already has Cholaca a drink derived from cacao tops it off. To sum it up we wanted a beer that sends your palate on vacation. Aged 6 months in Jamaican rum barrels. ABV: 10.8%

Ten Fidy Imperial Stout

Ten FIDY Imperial Stout – This titanic, immensely viscous stout is loaded with inimitable flavors of chocolate-covered caramel and coffee and hide a hefty 65 IBUs underneath the smooth blanket of malt. Ten FIDY is made with enormous amounts of two-row malt, chocolate malt, roasted barley, flaked oats and hops. Ten FIDY is the ultimate celebration of dark malts and boundary-stretching beer. IBU: 65 | ABV: 10.5%

Java Ten Fidy Imperial Stout

Java Barrel-Aged Ten FIDY. Aged just like BA Ten FIDY, but mixed with Hotbox Roasters beans from Central America, South Asia, and Ethiopia. "We took an already ridiculously complex beer and thought a bit more complexity could be fun," said Longmont Cellar Manager Dennis McShea. "We asked our brothers from Hotbox Roasters to come up with a special blend of beans and roast to compliment the flavors of BA Fidy. We specifically asked for a cold brew that would complement the vanilla and caramel notes from the oak but have the toughness needed to stand next to the bourbon and roast character from the barrel and the beer." ABV: 12.9%

Tequila Barrel Aged Gubna

Anejo Tequila Barrel-Aged Gubna Imperial IPA is a 10% ABV ale brewed with rye and pale malts, creating a viscous, spicy backbone. 100 IBUs of hops are pounded into the kettle and then again in a dry hop to challenge the ferocity of the malt profile. All this to create a citrusy, dank, spicy, warming IPA. Gubna was aged in Anejo tequila barrels for 4 months, acquiring a strong agave and sweet fruit taste and aroma. This offering is a blend of fresh Gubna and the barrel-aged Gubna to regain some of the hops lost to the aging process. IBU: 100 | ABV: 10%

Rodenbach

Rodenbach's subtle sour undertones make it a real thirst-quencher. Rodenbach Classic's characteristic taste is achieved through its unique mixed fermentation process, whereby top yeasts and bacterial flora undergo 24 months of maturation in 150 year old oak casks, resulting in the distinctively gentle sour taste for which it is known and loved.

Rodenbach Grand Cru

Award Winning* Rodenbach Grand Cru (Alc. 6% Vol.) is a blend of "young" beer (33%) and an older beer (67%) that has matured in oak vats. It is the high percentage of the older ripened-in-oak beer that gives it the complex and intense bouquet with a very long aftertaste like a Grand Cru wine.
