Lower De Boom (2015) Barleywine

Deep, mahogany color, rich malt candied rock sugar flavors with sweet burnt currant and fig aromas. Its strong alcohol content is tempered by a clean bitterness and complex flavors. ABV 11.5%

Blood Orange Brew Free! Or Die IPA

Four hop varieties and seven blood oranges ago, our founders brought forth in this brewery, a new beer, conceived in Liberty, and dedicated to the proposition that not all IPAs are created equal. Because sometimes, real fruit just makes things even more delicious. Blood Orange Brew Free! is brewed like our original west coast style Brew Free! or Die IPA, but with an abundance of fresh blood orange puree and a twist of citrusy dry hops. Refreshingly different. As Abe would say, "Whatever you are, be a good one". IBU 70 | ABV 7%

Monks Blood (2016) Quadrupel

Belgian Strong Dark ale brewed with cinnamon, on oak chips with figs. ABV 8.3%

THE ALE APOTHECARY

The Ale Apothecary

Bend, OR
www.thealeapothecary.com

Sahalie Wild Ale

Batch Vintage, fermented open with our wild house culture in the woods of Oregon. SAHALIE is the flagship brand of The Ale Apothecary, brewed year-round of local Oregon Mecca Grade malted barley & wheat and Goschie Farms Cascade Hops. Hop bitterness and acid produced by our house lactobacillus culture provide the balance to the malt and oak structure of the beer, along with brettanomyces & pediococcus influence from barrel-aging. Mashing, fermentation, and aging all take place in 2nd use French oak barrels. She spends over 1 year in these barrels during a long, relaxed fermentation prior to a month-long dry-hopping (in oak puncheons!). Bottle fermentation with Oregon honey is the last crucial step for 100% natural carbonation; this process takes 3-6 months. Made of the same raw materials as La Tache, Sahalie is our celebration of how the brewers' art and the brewing process are ingredients unto themselves! Our sensory experience is a tropical & citrus fruit nose of apricots, pineapple, and orange produced from yeast esters and hop oils. The palate is tart and pithy, combining earthy and herbal undertones that evolve as the beer opens up within your glass. IBU 20 | ABV 9.44%

El Cuatro Sour Ale

El Cuatro is batch-vintage, open & wild fermented at our mountain brewery in the woods of Oregon. El Cuatro is brewed only a handful of times throughout the year; the name refers to the very first four brews we initially made in early 2012 when we started The Ale Apothecary. El Cuatro gets its unique character from our brewing process, yeast and water from brewery property and direct-sourced malt from Mecca Grade Estate Malt (50 miles from the brewery) and Goschie Farms Cascade hops (100 miles away). After primary open fermentation at the brewery, the beer gets placed in first-use Oregon pinot noir barrels from Domaine Drouhin for approximately 9 months, then transferred into French brandy barrels for an additional 6. Fresh yeast from an ongoing fermentation and Oregon honey from various local farms are added at the bottling step for 100% natural carbonation and the bottles are matured for 6 months prior to leaving the brewery. Stone fruit, mild vinous and barrel notes along with fresh yeast esters produced from bottle conditioning are all present and evolve as the beer opens up in your glass. IBU 20 | ABV 10.11%

Alesong Brewing & Blending

Eugene, OR
www.alesongbrew.com

Rhino Suit

Rhino Suit was the first spirits-barrel-aged beer we released at Alesong (way back in the Winter of 2016!) but remains one of our favorites. This year's rendition of our imperial milk stout was matured in freshly emptied Heaven Hill bourbon barrels to add velvety layers of vanilla and coconut to the sweet and chocolate malt flavors of the base stout. IBU 31 | ABV 12.5%

Touch of Brett Mandarinina

This year's version of our 3-time GABF award winning 100% Brettanomyces-fermented farmhouse ale is dry-hopped with Mandarinina Bavaria hops to accentuate the yeast-induced tropical fruit and citrus notes. IBU 23 | ABV 8.5%

Raspberry Parliament

Inspired by the red and brown ales from the Flanders region in Belgium, we initially matured this unique wild ale in Oregon Pinot Noir barrels. It was then moved into 2nd use charred American oak barrels that formerly held bourbon with Oregon raspberries to provide tart and sweet flavors that marry with the mild oak and funky yeast complexities. Ya dig? IBU 4 | ABV 8.2%

Ayingier Celebrator 
Doppelbocks ("double bocks") were probably first brewed in the 17th century by monks in Bavaria - a stronger version of bock beers that originated in Einbeck, Germany. Doppelbocks are usually rich, malty lagers; usually dark-colored; the names often end with the suffix "-ator." Ayingier Celebrator is probably little changed from the doppelbock first brewed at Ayingier in 1878; Ayingier's doppelbock was once called "Fortunator" but this global classic is called "Celebrator" around the world now. A rich, dark elixir with cascading layers of malt complexity balanced by elegant hops. Notes of toffee, caramel, graceful dark-malt roastiness, and the essence of barley. Lager fermentation leads to clean flavors and pinpoint conditioning. Semi-dry finish. IBU 24 | ABV 6.7%

The unique yeasts impart layers of spicy, fruity, & bright tart notes to the beer. Aged in our Hungarian oak tuns, the porous character of the wood allows air to slowly seep in during aging creating micro-oxidation that smoothes any harsh flavors Grand Cru often denotes a vintage of the highest quality or 'the best of the best'. This release has been aging in our Barrel Room for just over 24 months. IBU 9 | ABV 6.5%

Samuel Adams Utopias

This year's brew is the result of complex and carefully timed brewing. It is a blend of batches, some having been aged up to 27 years in a variety of barrels in the barrel room of our Boston Brewery. With each batch of Utopias we select a variety of casks for aging. These casks add flavors of nutty oak, toffee, and honey notes, flavors of fig, chocolate, raisin, vanilla, & slight spice. This blend was aged in single-use bourbon casks from the award-winning Buffalo Trace Distillery. A portion was also aged in hand-selected finishing barrels which bring out notes of wood, molasses, tobacco, and spice. This year's blend spent time aging in Madeira, Carcavelos, Cognac, and Armagnac barrels, which contribute elegant, dark fruit aromas. ABV 28%

Brooklyn Lager

Brooklyn Lager is amber-gold in color and displays a firm malt center supported by a refreshing bitterness and floral hop aroma. Caramel malts show in the finish. The aromatic qualities of the beer are enhanced by "dry-hopping", the centuries-old practice of steeping the beer with fresh hops as it undergoes a long, cold maturation. The result is a wonderfully flavorful beer, smooth, refreshing and very versatile with food. Dry-hopping is largely a British technique, which we've used in a Viennese-style beer to create an American original. ABV 5.2%

Old 23 Barleywine

An annual Bristol tradition, Old No. 23 revives an English farmhouse brewery practice of making a complex ale to set aside for special occasions. Our version, while painstaking and time-consuming to brew, rewards the connoisseur with an ale that has the depth and complexity of a good brandy or single malt scotch. Massive quantities of malt and hops, a long aging time and limited availability make this a special ale worthy of its reputation. IBU 22 | ABV 10%

Gilded Lily Tripel

Are there any aromatics more corruptly appealing than that suspect waft of dirt and sex that is the heart of fresh white truffles? Not the fake pretty perfumes ubiquitous these days, but the approach/avoidance primitive reaction to that heady scent of something that was secretly thriving just below fecund soil on early morning moments in late fall. Gilded Lily looks to take the beauty of a classic Belgian tripel a step further by stitching a little bit of white truffle's leather to the edges of the beer's luxurious drape—the pull of a touch of kink peeking from a lovely silk robe. False Summit Quadrupel

Pouring a deep amber-brown color, Arête offers an herbaceous, fresh-mown character, some deeper and subtle citrus notes, along with an engaging floral character. It's a one-hop wonder, but we'd have never guessed so. There's some dark-fruit, leathery complexity, soft brown sugar and caramel, with a soft, red-fruit alcohol note. Fine carbonation keeps things on point. Bitterness is just enough, while the interior notes of this beer build with warmth: chewy caramel, toffee, brown sugar. IBU 67 | ABV 12.5%

XXII Anniversary Ale

Since founding our brewery in 1996, we have specialized in the rare art of brewing beer in oak barrels. In the fall of 2006, we released a limited-edition oak-aged strong ale called 10 to commemorate our 10th anniversary. The experience was greater than any one of us could have ever imagined. We now present XXII, our thirteenth release in what has become an annual autumn rite at our brewery. This beer is all about the barrels. Bourbon, Rum and Gin barrels combine forces to create incredible complexity. The stout percentage is restrained, allowing the wood to speak and be heard. I especially like the way the Gin barrels bring new spice notes that we have not seen before in an Anniversary blend. I will let you discover the rest. IBU 32 | ABV 12.7%

Mole Merkin Stout

A variant of our Velvet Merkin, Mole Merkin was inspired by the traditional Mexican dish, Mole. We added dried Puya chili, cinnamon, & cocoa nibs from the Dominican Republic to a Brandy Barrel aged version of our Velvet Merkin. The chili adds a spicy yet approachable heat with rich dark berry fruit flavor. The addition of cocoa nibs helps balance the heat from the peppers, adding to the mouthfeel. The result is a complex yet delicate beer with flavors of earthy chili pepper, cinnamon and cocoa. IBU 21 | ABV 8.8%

Krieky Bones Wild Ale

What began as a birthday gift took on a life of its own. Proprietor David Walker cornered us one day and requested a sour cherry fermented beer for his 50th birthday. A handful was sold at a release and our customers demanded more. Behold Krieky Bones! This beer begins its life as a Flanders Red inspired beer aged over a year in French oak foeders. Sour Montmorency cherries are added and allowed a secondary fermentation. The aroma is of cherry pie complete with flavors of pie crust, spice and an underlying funk. Vienna malt notes give way to an assertive acidity and a bright carbonation. A santé! IBU 5 | ABV 6.3%

UnderCurrants Wild Ale

In 2018 we challenged ourselves to using an array of fruit new to our palettes and practices. When offered a high quality freshly picked Black Currant sample, we couldn't resist. We present to you a metamorphosis for your senses. Using 12 to 36 month aged Agrestic Ale as a base, to which we add 1.5lbs/gal Black Currants, the beer undergoes the final maturation in our French Oak "Fruiders" for an additional four months. A convergence of supple tannin and deep purple pigments, gooseberry jam, a mouth-watering acidity and earthy leather elicit notes of a beer having vinous roots. A new variant to one of the Barrelworks pioneers is born. Santé! IBU 5 | ABV 6.3%

Window Licker Barleywine

Barley Wine is a strong ale originating in the later 18th century in response to aristocrats' desire for strong beverage after conflict between the French and English halted the import of wines. Barley Wines were often produced on estate breweries by the rich for special occasions such as the birth of a first born son and weren't commercially available until Bass out of Burton-upon-Trent produced Bass no. 1 in 1870. Ours come with huge dark cherry notes, toffee, caramel, raisins, figs, and mellowed alcohol making this monster smell like something you might pour over cheesecake (highly recommended!). Aged six months before its release, so whether you are feeling aristocratic, knocked-up, or just feel liking getting f@#ed up, drink a few and you might end up licking windows. IBU 90 | ABV 10.0%

Vino Veritas

This high gravity oenobeer has the malt profile of a quad but is something very far from a belgian quad at the same time. It resembles a tannic red wine, with hints of spicy spanish cedar wood. 100 IBUs are only supported from the slight body remaining. May it be glycerols or residual sugar, with the gargantuan quantity of hops and the 25% gewurtz involved, the balance of this oenobeer is striking. Unusual yeasts further augment the aromas, it's a burst of mangos, sometime touching some notes that would probably be more characteristic of a South African Pinotage, and the sip is very long, resinous and citrusy with a hint of apples, thanks to the magic malic acid we decided to leave behind for additional fruity splendor. La Trappe Quadrupel

Quadrupel sits at the top of the La Trappe range. At 10% alcohol by volume, it's a big deep amber beer with a rich, warming flavor. Full-bodied and mild, slightly sweet and just a hint of bitterness round out the palate. In the nose you will detect fruit, a faint, pleasant yeastiness and just a touch of resinous hops. Although Quadrupel is delicious when consumed fresh, it can benefit from years of aging in a cool, dark place. The flavor of aged Quadrupel is reminiscent of port. ABV 10%

Lindemans Strawberry Lambic

of Brussels, in the quiet Belgian town of Vlezenbeek, the Lindemans family has been farming and homebrewing as long as anyone can remember. Lambics come only from the Senne River valley, near Brussels - a region about 15 by 75 miles in size. The unusual, demanding, and unique flavors that come from multiple yeast strains are unmatched in the world of beer. Rosy hue, with a beautiful aroma of perfectly ripened strawberries. Shows complex, captivating flavors; delicate sweetness is balanced by traditional Lambic tartness in the finish; wild yeast complexity, hugely drinkable. IBU 14 | ABV 4.2%

Lindemans Ginger Gueuze

Lambic, or spontaneously fermented beers, are the beers of this region and are among the world's rarest: they are the only beers fermented via wild, airborne yeast - no yeast is added by the brewers. The romantic, mysterious, wild-fermented wheat beers of Belgium's Flanders are among the world's rarest beers. The unique combination of the Senne River valley; small hills with numerous cherry trees; small farms growing hops, barley and wheat; and a mild climate has given the region an air-disseminated microflora that has seeded farm breweries for more than 500 years. For gueuze, the base lambic is blended to make a distinct, wine-like drink that is traditionally served with the meal (a blend of 1/3 young lambic and 2/3 old lambic). Gueuze is known to mature beautifully, and stories abound of discovering age-old gueuze lambics that had matured to perfection. Hazy golden color; bold ginger aroma and flavor enmeshed with the sharp, tart dryness of gueuze; limited release Botanical Series. IBU 12 | ABV 6%

Lavender Vanilla Melanoidin Imperial Stout

Melanoidin is a massive imperial stout that undergoes multiple mash infusions and an extended boil. The result is a motor oil thick and silky smooth mouthfeel with extremely developed notes of chocolate, caramel and coffee. The resulting flavor is reminiscent of gingerbread and dark chocolate. ABV 10.5%

Blackberries and Cream Dyad Sour Ale

Dyad is our hybrid sour ale brewed using techniques and ingredients for both sour beer and kombucha production. The result is a unique form of sour beer that encompasses a complex array of tropical fruit and citrus flavors that showcase the true scope of fermentation characteristics. For this variant we added copious amounts of blackberry puree and lactose sugar to add a depth of sweetness and a bold fruit flavor that compliments the acidity and effervescence. ABV 7.5%

My Life's Work Sour Ale

This beer was brewed in collaboration with our friends at Molly's Wine and Spirits. We took our sour kombucha ale, Dyad, and aged it in Law's whisky barrels for over a year. The beer developed an intense acidity in addition to complex notes of oak and vanilla. We blended this beer with fresh stock of Dyad and added mangoes to balance the acidity and tie all of the flavors together. ABV 7.5%

Bromance Sour Ale

This beer was brewed in collaboration with Funkwerks brewery in Fort Collins. The original idea was inspired by a shared love of the French cordial St. Germain and the way that it presents in the classic St. Germain and champagne cocktail. For this beer, we produced a sour biere de champagne and added elderflower and meyer lemon in the boil and dry hop. The result boasts a complex and bright acidity buffered by nuanced floral notes and subtle sweetness. ABV 7.5%

1000 Days of Wood Barleywine

This beer came from the first batch we ever brewed, back in 2015 when we were still contract brewing out of Funkwerks brewery. The beer is based on the barleywine style but with large amounts of wheat and rye in the grist to emulate a pseudo rye-whisky profile. The beer was fermented with an english yeast and then left to age for over 3 years in fresh bourbon casks. In that time the beer increased in density, alcohol and sweetness and developed notes of super ripe fig, intense caramel and vanilla. ABV 15%

Friek Sour Ale

When we first introduced Friek in 2010, we set out to create a unique blend of framboise (raspberry sour ale) and traditional lambic kriek (cherry sour ale). Each year, multiple generations of kriek ale age patiently in oak barrels, some dating back ten years in our cellar. Fresh Colorado-grown raspberries are then added to the wild fermented brew just prior to the final blending, creating a subtle sweetness to balance the tart cherry flavors with an effervescent, dry finish. Cuvée des Jacobins Rouge

Cuvée des Jacobins Rouge is a Flemish Sour Ale, red in color with a beguiling balance of malty sweetness and acidic sharpness. It is made from spontaneously fermented and barrel-aged beer of at least 18 months in age. The beer is cooled overnight in a large, shallow metal vessel called a coolship and then fermented and aged in large oak foudres which are made in France and assembled on-site at the brewery. ABV 5.5%

Vander Ghinste Oud Bruin

A regional classic. A traditionally-brewed Flanders brown ale is blended with 18-month old lambic to create this tart, refreshing, medium-bodied benchmark ale. Reddish-amber with a tan head. Hints of tart fruit and an underlying light lambic sourness dominate the nose. The palate has apple and raisiny fruit notes offset by a touch of brown ale caramel sweetness and a toasty-woody finish with just a light touch of hops. We call this "mixed" fermentation because a large proportion of spontaneously fermented sour beer is blended with a "normally" fermented beer. ABV 5.5%

Cuvée des Jacobins Prestige

Prestige is a blend of 24 month-old foederbier, spontaneously fermented in and blended from foeders IX, XI and XIV. It has a deeper brettanomyces character and an overall soft and fruity character. Sourness is here in plenty, just like the Cuvée Rouge, but the balance is finer and tipped more toward stone fruit. The complexity of true spontaneous fermentation cannot be equaled by any other method. Extended aging brings about different stages of fermentation, each adding their own note. Cerevisiae, brettanomyces, and lactobacillus are like voices in a choir—a truly gifted brewer can bring them into harmony. ABV 7.6%

Kriek des Jacobins

Kriek des Jacobins is a Flemish Sour Cherry Ale, red in color with a nose of cherries, almonds and vanilla. On the palate it is deep and complex, with resonant fruit notes and a soft, mellow acidity. The beer is cooled overnight in a large, shallow metal vessel called a coolship and then fermented and aged in large oak founders which are made in France and assembled on-site at Brewery Omer VanderGhinste. Brewed from British malt and multiple hop varieties, Stingo is fermented in open-topped stone "Yorkshire Squares," with the Samuel Smith ale yeast strain. It is then aged in oak barrels that previously held cask-conditioned ale, gaining complexity and depth from the wood. Samuel Smith's Stingo ages for a year at the brewery before release. Bottle conditioning - bottling the beer with live yeast for carbonation - produces soft conditioning as well as a fruity aroma and finish. Samuel Smith's Yorkshire Stingo was first released in the US in August 2009. Please note: Stingo has the year brewed on the back label. Due to barrel aging & bottle-conditioning, the release year is one year after the year brewed. Belgian Quadruple. The Abbey of St-Remy, in the southern part of Belgium, was founded in 1230, and the monks began to brew beer sometime around 1595. The beautiful small brewery in the abbey, Rochefort Trappistes, is one of only eleven Trappist breweries in the world and makes full-bodied, deeply flavored dark ales. They are bottle-conditioned and among the world's most highly-respected beverages. Only beers made in a Trappist Monastery, under the supervision of the monks, can use the Authentic Trappist Product seal. There are only twelve Trappist breweries in the world. Although written records of brewing at Rochefort date to 1595, Rochefort 10 was developed in the late 1940s and early 50s. It appears on virtually every list of the world's finest beers. The "10" refers to the brew's original gravity. Dark brown color. Great strength balanced by a complexity of flavors and firm malt backbone. Two Roads Holiday Ale is inspired by the little known Biere de Noel style, a subset of Biere de Garde, both of which originated on small farmhouse breweries in the north of France. In its native France this special type of ale is brewed by just a handful of small breweries and is only available for the few weeks leading up to Christmas. 2015 GIBF silver medal- Biere de Garde. Westmalle Tripel

The tripel style was originated at Westmalle starting in 1931; it was first sold in 1934. The name "tripel" probably comes from the protocol established by "dubbel" - it was the brewery's "third beer." There are hundreds of breweries producing tripels today, but a tripel will always be stronger and lighter-colored than a dubbel from the same brewery. Glowing orange-gold color, herbal aroma, and complex flavors that meld rich malt sweetness, warmth, hops, and powerful drinkability. IBU 37 | ABV 9.5%

Kōbo Kai Saison

Kōbo Kai is a saké inspired mixed culture brett beer made in collaboration with Good Bugs. The central component to this blend is a golden sour aged in neutral oak barrels, with nearly 20% of the grist bill being comprised of rice and fermented with a blend of sake yeast and acid producing *bretanomyces*. A wild capture fermented saison and a wild captured fermented table beer were blended alongside, contributing elements of hay, jasmine and subtle barnyard funk. The three components of this beer come together producing stone fruit and citrus aromatics that meld with notes of peach, dried mango, straw, and jasmine. Kōbo Kai roughly translates to "yeast party", which is exactly what you'll find with this beer. IBU 11 | ABV 6%

Any Day Funk: Peach Saison

A stainless steel aged mixed-culture sour, refermented on 600 pounds of third use whole peaches that were previously used for Packed with Peaches, our sour golden, and Peach Table Beer, our low alcohol table beer with peaches. Third use fruit has almost zero residual sugars left, but still has flavor and aroma compounds that are imparted into the beer. After aging for three months on peaches, the beer was dry hopped with Mosaic and Ekuanot to compliment the stone fruit character. Low acidity, low bitterness, and low alcohol, at 5.6% ABV, make this a highly sessionable beer that is full of complexity. This is a unique release that showcases what we can achieve with a complex mixed-culture, third use fruit, and dry hopping. IBU 10 | ABV 5.6%

Temporary Residents: Sun City

Begins as a collaborative wheatwine base recipe with our friends from Wren House Brewing Company in Phoenix, Arizona. The base beer is racked into two Laws Whiskey House barrels and aged until the flavor profile of the beer is just right. Temporary Residents was named by members of Arizona Traders Society, a craft beer group who chose the name to summarize the special bond between our two great states: from the geographical boundaries of the Four Corners to the natural resources of the Colorado river, and the migratory patterns of indigenous birds to the influx of elderly recreational vehicle enthusiasts. The beer starts off with a full Bourbon aroma that is balanced with rich caramel, toasted oak, and vanilla that melds into a soft, easy drinking fireside sipper which is rounded out with a grainy baked bread, dark stone fruit, and warming Bourbon flavor. It is high alcohol at 12% ABV, but balanced with a full body of wheat, a semi-sweet caramel flavor, and a dry finish. Notes of vanilla linger on the tongue from the oak addition of vanilla, creating an incredibly smooth Bourbon barrel aged beer without the whiskey bite. IBU 30 | ABV 12%

Cinnamonstah Imperial Stout

Imperial Chocolate Stout with Cinnamon, balanced to express decadent and rich dark chocolate with the savory spice of cinnamon. Our Monstah series begins with a chocolate and caramel forward grain bill that is mashed with flaked oats and crystal malts to create a heavy base stout that ferments into a high alcohol chocolate imperial stout that is balanced with a full body and residual sweetness. Cinnamon is added post fermentation to maximize the flavor and aroma. IBU 24 | ABV 10.2%

Peaches & Cream County Fair Cobbler Flambé Imperial IPA

Imperial Milkshake Sour IPA with whole fruit, spices, lactose, and late addition hops that balances light acidity with dessert adjuncts, adding a new layer of complexity and flavor to the Sour IPA category. County Fair Cobbler uses a completely new, mildly-acidic, kettle sour base that we have been working on for over two years and fine-tuned alongside our popular "Slush" series. Since our first batch of Sour IPA over two years ago, we have developed a process that results in a moderately sour beer with body, complexity, and flavor. County Fair Cobbler is a complete shift from brewing a hoppy kettle sour, by intentionally changing aspects of the beer using lactose, specific yeast strains that express fruit character, souring cultures that maintain balance, hop varieties that complement the fruit aspects of the beer, and water chemistry that enhances body and hop perception to arrive at a base beer that is designed to express the use of adjuncts and whole fruit. The first sip opens into a rich stone fruit flavor of peaches with a creamy and soft mouthfeel that finishes with a subtle lemon bite. IBU 20 | ABV 9%

Brewed with a base of Marris Otter malt (because why not!), Styrian Goldings, East Kent Golding, Saaz, and a wee bit of Mosaic hops for a twist!
